

The Revenge Song

Reneé Dominique

You got me late-night thinking
And dreaming all day
My mind keeps on tripping
On the idea of you
But I know you're not the type
Who never ever stays
You go from her to her and your talent is running away

You got me singing about you
And I hate it but it seems so right
Yeah, you keep me hooked and you leave me alone
But I won't go down without a fight
Call me crazy, it's true
But when you leave, I'm tellin' you
You better go out and hide

Cause I'll find you then I'll hunt you down
Smash your heart like how you smashed mine
I'll pick up your pieces then I'll put them in a bag
Then I'll scream how much I loved you
And how you didn't feel the same
Yes, you play with other girls but for me, this is not a game
So beware
Beware

You asked me out one night
To stroll around just you and I
But I see no sincerity when I look into your eyes
I really wish I could change you
But you can change anyone
I'm starting to fall like crazy and when I do it becomes so bad

A funny story about a crazy in love girl like me
Who meets this guy who dates a thousand but says he's free
You'll keep me hooked then you'll leave me alone
But I won't go down without a fight
Our contrast is cute so let me tell you
If you play with me your life is through

Cause I'll find you then I'll hunt you down
Smash your heart like how you smashed mine
I'll pick up your pieces then I'll put them in a bag
Then I'll scream how much I loved you
And how you didn't feel the same
Yes you play with other girls but for me, this is not a game
So beware
Beware
Ooh, ohhh
Hey yeah hey
Beware
Beware
