

# Good Girl

Reneé Rapp

Darlin', we can't be alone together  
One hit and we don't know any better  
T-shirts and old skirts on every dresser  
I had to take a little break and get my shit together

Oh, sunsets and yoga  
Oh, safe sex and no drugs  
Oh, until you showed up

Yeah, I was doing alright  
Being a real good girl  
About to call it a night  
I promise I was  
just have one drink  
And then leave like a grown up  
Until you showed up

I wasn't planning on dancing 'til the sun came up  
Was gonna sleep alone, I promise I was  
I had my hand on my keys  
It was over  
Until you showed up

Showed me your lip tattoo a little closer so I can just get a little  
Tongue-tied and twisted, and sentimental  
I took ? when you put on that sexy gown

Oh, I know I probably shouldn't though  
Oh, fuck it, baby, take me home

Yeah, I was doing alright  
Being a real good girl  
About to call it a night  
I promise I was  
just have one drink, and then leave like a grown up  
Until you showed up

I wasn't planning on dancing 'til the sun came up  
Was gonna sleep alone, I promise I was  
I had my hand on my keys  
It was over  
Until you showed up

Good girl  
She's black-out drunk, I'm worried about her  
Good girl  
She's gonna disappoint her father  
Good girl  
But being bad's her superpower  
Good girl, good girl, good girl

Yeah, I was doing alright  
Being a good good girl  
About to call it a night  
I promise I was  
Just have one drink, and then leave like a grown up  
Until you showed up

I wasn't planning on dancing 'til the sun came up  
Was gonna sleep alone, I promise I was  
I had my hand on my keys  
It was over

Good girl  
She's black-out drunk, I'm worried about her  
Good girl
