

# I Can't Have You Around Me Anymore

Reneé Rapp

I get funny when you're around me  
We always do dumb ...  
And piss everybody off  
Tell me where you'll be  
And I'll leave my own party  
It's probably a problem if it's this hard to stop

Now it's causing lots of issues with my baby at home  
'Cause in every single picture, we're a little too close  
And I love you, but I wanna, and it's making me feel unsure  
So, I can't have you around me anymore

Somehow, we always end up naked  
Nothing ever happens  
But it still feels real good  
And I wish she didn't, but I see why she hates it  
She wants to be the only one who's allowed to look

It's the root of every issue  
It's the reason we fight  
And I don't wanna have to choose  
But I'm taking a side  
'Cause if it isn't me it's her who's gonna close that door  
So, I can't have you around me anymore

There's places we went that I kept to myself  
And you got to know me a little too well  
But she'll never be someone I wish that I didn't know

Mm

But she will never be you, but she keeps me on course  
And I'm not supposed to wonder if I should be yours  
So, I can't have you around me anymore
