Moon

Reneé Rapp

I don't miss you
'Til the moment when I flip off the lights and I'm in this room
Going back in space and time when we're still kissin'
And now it hurts, I know you're somewhere out there still exist
ing
This shit's persistent

'Cause you split my world in two
Now I'm half the one you knew
And I know that we got different views

But we're lookin' at the same moon (Ooh)
Wonder if you miss me too when we're lookin' at the same moon (
Ooh)
How can I be dead to you when we're lookin' at the same moon

Are you lonely?
Are you movin' on quick? I hope you're healin' slowly
And that your nights, they hurt like mine, 'cause I'm not sleep
in'
I'm just talkin' with your ghost and dancin' with your demons
And they're not leavin'

'Cause you split my world in two
Now I'm half the one you knew
And I know that we got different views

But we're lookin' at the same moon (Ooh)
Wonder if you miss me too when we're lookin' at the same moon (
Ooh)
How can I be dead to you when we're lookin' at the same moon

In the stars, I can see your eyes
All the stars make me feel alive
Only place left for you and I
In the stars, I can see your eyes
All the stars make me feel alive
Only place left for you and I

But we're lookin' at the same moon (Ooh)
Wonder if you miss me too when we're lookin' at the same moon (
Ooh)
How can I be dead to you when we're lookin' at the same moon
