

Bring It On

Renegade Five

I got you in my dreams
Like a butterfly your hooked in my eyes
You got me to the bones
Like a fairytale in life
When you slept in my arms
I got fantasies that you can't believe
I put sail in the dark
You can blow the wind in the night

Bring it on, when you take me up you
Bring it on, burning baby
Bring it on, I will never let you go
From the time you bring it on...

I can take what I want
So if I were you I would do it all
Understand how I feel
And you can tell if I won't make it
There's no words to describe
I'm upside down can you help me out
I just think of the time
When your heart beated next to mine
Bring it on, when you take me up you
Bring it on, burning baby
Bring it on, I will never let you go
From the time you bring it on...
From the time you bring it on
From the time you bring it on.....Bring it on..

You are the fire come and find me into the dark
And I gotta fear that you leave me full of tears

This night I want you to do it baby, this time you make this world turning over.
This night I really feel you bring it on

Bring it on, when you take me up you
Bring it on, burning baby
Bring it on, I will never let you go
From the time you bring it on
