

fall apart

renforshort

Heard that you've been on the fence
All cuz I love your bestest friend
Said to me you wanna cry
If I'm not there you won't survive
You're delirious
So serious
Oh poor boy I got dry eyes
Feel inferior
Be drearier
Oh well

I'll see you fall apart
It's dark
It's you
Can't wait to fall apart
With you
With you

I'll see you fall apart
It's dark
It's you
Can't wait to fall apart
With you
With you

I'm pulling myself off the floor
Maybe it's just me
Who wants to fall apart
With you
With you

Last year I watched you just fall apart
All the best love songs come from broken hearts
I watched you smash the window of my brand-new car
I watched you leave my arms Mrs Bonaparte

S.O.S I been falling I been spiraling
I try my best I'm a pessimistic nihilist
Found my head I'm a lose it in the mileage
Smoke in my chest and I hate

To see you fall apart
It's dark
It's you
Can't wait to fall apart
With you
With you
To see you fall apart
It's dark
It's you
Can't wait to fall apart
With you
With you

I'm pulling myself off the floor
Maybe it's just me
Who wants to fall apart

With you
With you

Uh oh I know
How it feels to let me go
Oh, no I won't
See the end of you
You know
Uh oh I know
How it feels to let me go
Oh, no I won't
See the end of you
