

mind games

renforshort

I just moved into your head
Gonna stay here for a while
Little bits of light flood in
Every time you smile

I don't mean no disrespect
Got my shoes on in your bed
Put my picture on your wall
I'm the riddle you can't solve
I just moved into your head
Gonna stay here for a while

Taking up my headspace, sleeping in your brain
I swear this boy is deadly, he loves these silly games
When is it enough? Will it ever be enough?
We keep each other entertained
Playing these, playing these mind games
(Mind games, mind games)
Playing these, playing these mind games
(Mind games, mind games)

I see when you think of me
You silly little freak (You silly little freak)
Changing channels in your dream
At night when you sleep (At night when you sleep)

Kick my feet up, watch the show
Turn your mind into my own
Love the way I pull your strings
I'm controlling everything
I just moved into your head
Gonna stay here for a while

Taking up my headspace, sleeping in your brain
I swear this boy is deadly, he loves these silly games
When is it enough? Will it ever be enough?
We keep each other entertained
Playing these, playing these mind games
(Mind games, mind games)
(Playing these, playing these)

You know all my buttons and you pressed 'em
I'm in your head planting thoughts, did I mention?
Maybe we just do it for attention
Made up all the rules to perfection
Back and forth, you and I feel the tension
I'ma rewire our connection

Taking up my headspace, sleeping in your brain
I swear this boy is deadly, he loves these silly games
When is it enough? Will it ever be enough?
We keep each other entertained (Playing these, playing these)
Taking up my headspace, sleeping in your brain
I swear this boy is deadly, he loves these silly games
When is it enough? Will it ever be enough?
We keep each other entertained (Playing these, playing these)
Playing these, playing these mind games

(Mind games, mind games)
(Playing these, playing these)
Playing these (Playing these), playing these mind games
(Mind games, mind games)
(Playing these, playing these)
