

Candalera

REO Speedwagon

She was an unmarried woman
And I couldn't resist her charms
I fell in love with her innocence
And so she led me by the arm

Candalera
Can you hear me?
Candalera
Oh baby, can you hear me?

As the sun painted red on the sky
We walked through the halls of love
And we washed away our innocence
With the waters that fell from above

Candalera
Can you hear me?
Candalera
Oh baby, can you hear me?

Like some late-night romantic
We really fell from the darkened lady
There was no fence, charm or cloud in the sky
I didn't need to consider a maybe
And I'm going to give her all the love I can give

Candalera
Can you hear me?
Candalera
Oh baby, can you hear me?

Candalera
Can you hear me?
Candalera
Oh baby, can you hear me?

Candalera
Can you hear me?
Candalera
Oh baby, can you hear me?
