

## Move To Trash

Resolve

Right click  
Now, move to trash  
Do it again  
Throw the whole folder to the flames

Right click  
Now, move to trash  
Do it again  
Throw the whole folder to the flames  
Eat, sleep, doubt, repeat  
When will it end?  
Breathe in, breathe out  
Can someone mute my brain?

Blood on the draft  
Scrolling through the sounds  
Nothing to tell but I'm way too proud  
Trying so hard scares me to even try  
(Let's face it)  
The file's been corrupt for a while  
I feel digitalised  
Eye set to the core

Floating through the colours  
Lost track of the hours  
Floating through the colours  
Same shade, only brighter

Another lap  
Just to clarify  
This time the first shall be the last  
Hear me bark like the underdog I am

I've bleached every stitch of my own glitch  
Overdone it, grew a gator skin  
Forever post-traumatic

Said farewell to my own sanity  
Doomed to stay the same  
Hermetical creep

Let's tear it down

Erase  
Wipe out  
Everything down to the last byte  
Let it die, then  
Then sanitize

Floating through the colours  
Lost track of the hours  
Floating through the colours  
Same shade, only brighter

Right click  
Now, move to trash  
Throw the whole folder to the flames

Eat sleep, doubt, repeat  
When will it end?  
Breathe in, breathe out  
Can someone mute my brain?

Right click  
Now, move to trash  
Do it again  
Throw the whole folder to the flames  
Eat, sleep, doubt, repeat  
When will it end?  
Breathe in, breathe out  
Can someone mute my brain?
