

# I Want Everyone To Cry

Restless Heart

Nobody could love anybody like she loved me.  
I hurt her, I hurt her so badly I can't believe.  
Now she's gone, I'm low as I ever felt.  
Cried till there's nothing left,  
I'm gonna need some help.

[Chorus]

I want everyone who hears this song to cry.  
Maybe I'll get over her if the whole world helps me try  
and when I'm through don't let me see one dry eye.  
I want everyone who hears this song to cry.

Don't tell me in time I'll forget her 'cause that's not true  
So help me I've tried every angle that I know to.  
So if you want, wait till the lights are low.  
Nobody has to know, come on let those teardrops flow.

[Chorus]

I want everyone who hears this song to cry.  
Maybe I'll get over her if the whole world helps me try  
and when I'm through don't let me see one dry eye.  
I want everyone who hears this song to cry.

I want everyone who hears this song to cry.  
Maybe I'll get over her if the whole world helps me try  
and when I'm through don't let me see one dry eye.  
I want everyone who hears this song to cry.
