

## Just In Time

Restless Heart

Such a sad story  
Broken down and lonely  
Broken down to my last dime

No one I could turn to  
No where left to run to  
I was almost out of time

You were the only one that ever caught my eye  
You reached out and took my hand and suddenly I came alive

[CHORUS]

Oh girl you found me just in time  
And I still can't believe you're mine  
Don't care that I'm a bit delirious  
I swear I'm gonna be just fine  
You saved me at the stroke of midnight  
Girl you found me just in time

It's only fare to warn you  
I'm so crazy for you  
Think I'm gonna lose control

'Cause every time you're with me  
Something in me breaks free  
Makes me want to rock and roll

Don't you know I will never ever let you get away  
Now that we are together I intend to find a way to make you stay

[REPEAT CHORUS]

[BRIDGE]

Imagine a world where there is never any pain  
That's what you are for me  
You give me what I'm looking for  
You're all I want and so much more

[REPEAT CHORUS]

Who care if I'm a bit deciduous  
I know we're gonna be just fine  
You saved me at the stroke of midnight  
Girl you found me just in time

Oh girl you found me just in time
