

Season of Harmony

Restless Heart

When I was younger I remember
Grandma's house in late December
We'd all gather 'round the Christmas tree
Those times were filled with fun and laughter
It can last forever after
If the spirit stays in you and me

And we wish you a season of harmony
Wishing on a star from above
And we wish you a season of happiness
But most of all we wish you Christmas love

Harmony brings us together
It'll keep you warm in snowy weather
It's a song of peace and joy, a thing called love

So let's keep the dream alive whenever
Friends and family get together
And Christmas bells ring in every heart

And we wish you a season of harmony
Wishing on a star from above
And we wish you a season of happiness
But most of all we wish you Christmas love

And we wish you a season of harmony
Wishing on a star from above
And we wish you a season of happiness
But most of all we wish you Christmas love
Most of all we wish you Christmas love
