Headlights

Restless Road

Got your picture off the dash
Your song out the speakers
Smell of your perfume out this ol' bench seater
Toe prints off the glass
The love you off the window
That you wrote that night we thought we meant it
A dirt road or a highway
Don't matter where I'm takin' this Chevrolet

I can't get you outta my headlights
I see you every time I hop up in my step side
When it's midnight and that moon's high
I see your silhouette swaying side to side

I can't get you outta my high beams
I see you all around town and in my dreams
I know everything we had is in the rearview
But baby, I can't get you outta my headlights
Outta my head, outta my headlights

Girl, you're every damn road, wherever I'm turnin'
A way of letting go I guess I ain't learnin'
Seeing your eyes, kissing your smile
You bet if I'm driving you're driving me wild

I can't get you outta my headlights
I see you every time I hop up in my step side
When it's midnight and that moon's high
I see your silhouette swaying side to side

I can't get you outta my high beams
I see you all around town and in my dreams
I know everything we had is in the rearview
But baby, I can't get you outta my headlights
Outta my headlights

When the sun's up you ain't around
Oh, but when it goes down

I can't get you outta my headlights
I see you every time I hop up in my step side
When it's midnight and that moon's high
I see your silhouette swaying side to side

I can't get you outta my high beams
I see you all around town and in my dreams
I know everything we had is in the rearview
But baby, I can't get you outta my headlights
Outta my head, outta my headlights
I can't get you outta my headlights
Outta my head, outta my headlights
