

It Ain't Easy

Restless Road

Move on out, get a job
Pack your stuff and pet the dog
Say goodbye to Dad and Mom, in the driveway
Sounds simple, but it ain't easy

Ask her name, ask her out
Find something cool to talk about
Front porch kiss, that first date as you're leavin'
Sounds simple, but it ain't easy

You can find the one, you can fall in love
You can chase that dream and make a million
You can find your faith, you can find your way
You can see God's truth and keep believing
Sounds simple, but it ain't easy

Save your money, learn to wait
Go out drinkin', but not too late
When your friends beg you to stay, don't find a reason
Sounds simple, but it ain't easy

You can find the one, you can fall in love
You can chase that dream and make a million
You can find your faith, you can find your way
You can see God's truth and keep believing
Sounds simple (sounds simple), but it ain't easy, oh, oh
No, it ain't easy

Learn to strum this old guitar
Pay the rent from a tip jar
Write a three-cord country song that's got some feeling
Sounds simple, but it ain't easy
No, it ain't easy
No, it ain't easy
