

Most Nights

Restless Road

Most nights would go like
Turning that bottle upside down
Way out, past midnight
Living it up was all I was on about

I was going 'round for 'round
Oh, ain't it funny how

Most nights can turn into
One night finding you
Finding me in the neon smoke
Turning in to when you know you know
Now most nights all I want
Is you here getting me gone
Making it worth every single waiting on you night before
Thank God those nights ain't most nights anymore

Most nights were more like
Me, myself, and red wine
So tired of the same lines
In the wrong place, from the wrong guy

I was a little more lost than found
Oh, ain't it funny how

Most nights can turn into
One night finding you
Finding me in the neon smoke
Turning in to when you know you know
Now most nights all I want
Is you here getting me gone
Making it worth every single waiting on you night before
Thank God those nights ain't most nights anymore
Oh, anymore

Most hearts never get to feel like this
Most people never get to taste a forever kiss
But with you I did

When most nights turn into
One night finding you
Finding me in the neon smoke
Turning in to when you know you know
Now most nights all I want
Is you here getting me gone
Making it worth every single waiting on you night before
Thank God those nights ain't most nights
Thank God those nights ain't most nights anymore
Anymore
Anymore
