

No Can Do

Restless Road

My boss man is calling
There's dishes stacking up
My back yard needs a cutting
There's a wash me on my truck
Yeah, I got all day
I could get to it soon
But I just popped a top
So that's a no can do

No can do what this can do
I'm feeling ten feet tall, silver bullet proof
Yeah, this one in my hand bout to turn into two
Cause no can do what this can do

Hits me harder than tequila
Goes down better than champagne
There's a 12 ounce or 40 always calling my name
I could call it a night but to tell you a truth
I just popped another top
So that's a no can do

No can do what this can do
I'm feeling ten feet tall, silver bullet proof
I'm a damn good time after a few
Cause no can do what this can do

I could shoot some whiskey straight
I could light up a smoke
But nothing does it for me like that liquid gold

No can do what this can do
I'm feeling ten feet tall, silver bullet proof
If you're drinking what I'm drinking, then you know it's true
No can do what this can do
No can do what this can do
I'm ten feet tall and silver bullet proof
Tip one back and raise it up to the roof
No can do what this can do
No can do what this can do
