

One Step Ahead

Restless Road

(One step ahead)

You're lookin' at me, I'm lookin' at you
Caught up in this moment, but I'm thinkin' 'bout the future
Maybe later on, we should be alone
You ain't gotta say it 'cause I know just what you want
You just keep wearin' that dress
I'll take care of the rest

If you want another drink, girl, I already bought it
If you want a cab, girl, I already called it
If you want a slow dance throwback
Love song made for fallin', well, I'm on it
If you need your kisses to last a little longer
If you need your heartbeat to beat a little stronger
Don't worry that pretty little mind, I've already read it
Yeah, baby, I'm one step ahead (One step ahead)

I know you like my style by the way you're smilin'
And, no, I don't mind if we just sit and talk a while
And we ain't in a rush, let me take the lead
I can take you anywhere you're thinkin' we should be

If you want another drink, girl, I already bought it
If you want a cab, girl, I already called it
If you want a slow dance throwback
Love song made for fallin', well, I'm on it
If you need your kisses to last a little longer
If you need your heartbeat to beat a little stronger
Don't worry that pretty little mind, I've already read it
Yeah, baby, I'm one step ahead (One step ahead)
Yeah, baby, I'm one step ahead (One step ahead)

If you want another drink, girl, I already bought it
If you want a cab, girl, I already called it
If you want a slow dance throwback
Love song made for fallin', I'm on it
If you need your kisses to last a little longer
