

# Doll Fin

Reuben

Spread my arms  
And now take flight  
Strike a nerve  
And I push myself against the light  
My shattered spine  
There is no pain  
Suffering  
This misery without a name  
Misery without a name  
Misery without a name

All these amphetamines  
Running through my veins  
I am lucky I don't don't drown

Damn your eyes  
Damn your eyes  
Damn your eyes

I have seen  
The fall of kings  
Slowly now  
I strip the beetle of its wings  
Without fear  
And without shame  
[Doll Fin Lyrics on  
I accept  
This misery without a name  
Misery without a name  
Misery without a name  
Misery without a name

I do not fear the change  
Ripping through my system  
I am always coming down

Damn your eyes  
Damn your eyes  
Damn your eyes  
God, damn it all!  
This is all, this is my  
This is all, this is my  
THis is all, this is my all

This is it  
This is it  
This is it  
This is...

If I wanted you  
I would take you  
But I don't want you  
So I will let you suffer

What is this  
That melts my brain?  
I may die

But I am damned to live again  
Touch my eyes  
Embrace the blame  
This is my  
My misery without a name  
Misery without a name  
Misery without a name  
Misery without a name
