

Remedy

Rev Theory

Welcome to this world of plastic lies
Shattered dreams and screaming lights
Far from what I thought it would be
Hollow and empty

Soma
Medicate this sense of loss
Follow when they say

Sign the dotted line
Don't think about it
Guilty by design
No use
Don't fight it

Open your eyes

Fame is all a fantasy
Pain is cold reality
I hate all that's surrounding me
This time I can't deny
I need a remedy

Deception
Blindly we just fall in line
Innocence desensitized
Addicts in anticipation
For our medication

Sign the dotted line
Don't think about it
Guilty by design
No use
Don't fight it

Fame is all a fantasy
Pain is cold reality
I hate all that's surrounding me
This time I can't deny
I need a remedy

No time to look back now
'Cause we are in it too deep
This city's pulling us down
We're falling back to sleep
Damn, damn
Damn, damn

Fame is all a fantasy
Pain is cold reality
I hate all that's surrounding me
This time I can't deny
I need a remedy

Fame is all a fantasy
Pain is cold reality
I hate all that's become of me

This time I can't deny
I need a remedy
