

Remember Me?

Rev Theory

Remember me? I was the one who left the reservation
Remember me? I was the one who took the invitation
(Goodbye) Arrogance
(Blue sky) Ever since
Remember me? I was the ending of a generation

The tables turning
Bridges burning
No more bowing down

(Go on you)
Go take your medicine
And get the fuck off your knees
Nobody's innocent
(Go on you)
Go take your medicine
Remember me? (Hey! Hey!)
I am the revelation

Remember me? I took the fall but now I'm resurrected
Hard to believe this time around you won't be unaffected
(Be my) Enemy
(Wasted) Finally
Remember me? I'll be to one to fuel a generation

The tables turning
Bridges burning
No more bowing down

(Go on you)
Go take your medicine
And get the fuck off your knees
Nobody's innocent
(Go on you)
Go take your medicine
Remember me? (Hey! Hey!)
I am the revelation

Go take your medicine, oh

Go take your medicine
Go take your medicine
And get the fuck off your knees
Nobody's innocent
(Go on you)
Go take your medicine
Remember me (Hey! Hey!)
I am the revelation

(Go take your medicine)
Go take your medicine
(Go take your medicine)
And get the fuck off your knees
(Go take your medicine)
Go take your medicine
Remember me? (Hey! Hey!)

I am the revelation
