Revenge

Into the darkest room
Fulfilled with agony and despair
Shadows fall on my bed
As light fades away into rain!

Satan takes my soul
As death kisses my lips
Only a wall of cold stones
Is impossible escape from here!

Now reflects my wishlist
Feel the evil force of vengeance
I'm standing at the cliff
My anger wants to break!

Is a torment in fire
A merciless death
Sin hate winds of death
Cold swords in my chest!

Into the darkest room
Fulfilled with agony and despair
Shadows fall on my bed
As light fades away into rain!

Satan takes my soul
As death kisses my lips
Only a wall of cold stones
Is impossible escape from here!
