

# What The Milkman Saw

## Reverend and the Makers

Well, I've heard he's into leather and what they both do when they're together

The curtains twitch in suburbia tonight

And I've heard that they're not real brothers 'cause she went with an other

Taproom gossip in suburbia tonight

'Cause the mother's maids and he does the rounds

Hasn't Sheila Jackson piled on the pounds?

It wouldn't spread much quicker if you put it on the internet

What's goin' on at #34? Kev says there's bodies buried underneath the floor

But this ain't murder, it's just granocide

Can you believe that Keely's with him again?

A clever lass but she's daft when it comes to men

Walls have ears and there's nowhere to hide

And in the corner shop, all the rumors start

With the dirty looks and the sly remarks

It wouldn't spread much quicker if you put it on the internet

She's had a black one, she's had a white one, she's a had a brown one  
And Johnny reckons that he saw her in the chemist buyin' oral contrac  
eption

I'm tellin' ya it's true 'cause my cousin is her best friend

Have you heard that Sue's expectin'? Mark says 'cause Don had text hi  
m

Chinese whispers, spies in Mothercare

Apparently he's off the wagon, he's been seen in the George & Dragon

Put your eyes back in, don't you know it's rude to stare?

As all the peaceful people sleep in decent beds

In preparation for another day of decentness

If that's so decent, then I'll be something else

She's had a black one, she's had a white one, she's a had a brown one  
And Johnny reckons that he saw her in the chemist buyin' something fo  
r the weekend

I'm tellin' ya it's true 'cause my cousin is her best friend

Black one, she's had a white one, she's a had a brown one

And Johnny reckons that he saw her in the chemist buyin' something fo  
r the weekend

I'm tellin' you it's true 'cause my cousin is her best friend

She's had a black one, she's had a white one, she's a had a brown one  
And Johnny reckons that he saw her in the chemist buyin' oral contrac  
eption

It can't be for her husband 'cause he can't get an erection

Black one, she's had a white one, she's a had a brown one  
And Johnny reckons that he saw her in the chemist buyin' something fo  
r the weekend  
I'm tellin' ya it's true 'cause my cousin is her best friend
