

## Deceiver

Reverend Bizarre

Solar winds are blowing  
Neutron star controlling  
All is lost, doomed and tossed  
At what cost forever

Meteors fly around me  
Comets die, and then they  
And then they  
You wanna see how they try to surround me  
I can say, here today  
We shall stay forever

If you want to find us in a hurry  
Oh let me tell you don't you worry  
I can't say, here today  
We shall stay forever
