

# My Imagination

Revis

Times are changing  
Each and every day  
Got to get where I'm going  
Ain't end and out of the way  
There are stars exploding  
Got to make it out alive  
Find the way of knowing  
If it's real life

Baby it's a big man  
Of my imagination  
See in an instant  
Shatter and blow away

Baby it's a big man  
Of my imagination  
See in an instant  
Shatter and blow away

There's a light that's shinning  
I once had a glimpse  
Now the road is winding  
I forget where it begins  
Got to get where I'm going  
Showing what is yours and mine  
Find the way of knowing  
If it's real life

Baby it's a big man  
Of my imagination  
Seen in an instant  
Shatter and blown away

Baby it's a big man  
Of my imagination  
See in an instant  
Shatter and blow away

Baby it's a big man  
Of my imagination  
See in an instant  
Shatter and blow away

Baby it's a big man  
Of my imagination  
See in an instant  
Shatter and blown away
