

# Stardust (All Around Us)

Revis

I can feel the touch  
Holding onto us  
Pulling teeth for pleasure  
Like a mirror and it's measure  
Sanity is lost  
Look at what it cost  
It's cutting through my skin  
Tell me, does it ever end?

And leaves me wanting more than I can give  
With a promise of a life that I can't live

Star dust  
All around us  
Thoughts in Neon  
Carry me  
Through the forest  
Over my head  
With the last breath  
Vanity's Dead

Frozen and alone  
Fearing the unknown  
Look at what we treasure  
Through a mirror and it's measure  
The truth is what we know  
Frozen like a stone  
It's cutting through my skin  
And it's coming back again

And it leaves me wanting more than I can give  
With a promise of a life that I can't live

Star dust  
All around us  
Thoughts in Neon  
Carry me  
Through the forest  
Over my head  
With the last breath  
Vanity's Dead

Star dust  
All around us  
Thoughts in Neon  
Carry me  
Through the forest  
Over my head  
With the last breath  
Vanity's Dead

Vanity's Dead
