

Ultraviolet

Revis

Waiting

(Where have you been waiting around all day)

Somewhere in the shade of sorrow

Facing

(What have you been facing around all night)

'Cause what can I expect of tomorrow

I've got a friend that came to see me again

The last time she went I heard her leaving and singing

I've got a friend that came to see me again

The last time she went I heard her leaving and singing

All in all what's the use, spinning around

On and on never knowing what it's about

Swimming in the sea ultraviolet

Watch it come in speed ultraviolet

Swimming in the sea ultraviolet

Watch it come in speed ultraviolet

Changing

(What have you been changing into my friend)

Something I can see in the mirror

Face it

(What have you been facing all this time)

Doesn't seem to disappear

I've got a friend that came to see me again

The last time she went I heard her leaving and singing

I've got a friend that came to see me again

The last time she went I heard her leaving and singing

All in all what's the use, spinning around

On and on never knowing what it's about

Swimming in the sea ultraviolet

Watch it come in speed ultraviolet

Swimming in the sea ultraviolet

Watch it come in speed ultraviolet

All in all what's the use, spinning around

On and on never knowing what it's about

Swimming in the sea ultraviolet

Watch it come in speed ultraviolet

Swimming in the sea ultraviolet

Watch it come in speed ultraviolet

Swimming in the sea ultraviolet

Watch it come in speed ultraviolet

Swimming in the sea ultraviolet

Watch it come in speed ultraviolet
