

# Labyrinth of Eyes

## Revocation

Eyes unblinking, affixed on us all  
Feed the data stream  
Glowing pupils like voracious maws  
Stalking hungrily.

Purging us of every intimacy, undying is their vigilance  
Rendition extraordinary, suppressing the dissidents.

Followed by orbs of glass  
Watching our every move.

Trapped within their digital gaze  
Ensnared in a binary web  
Optic fibers growing like tendrils  
Lurking overhead.

A maze of surveillance with no exit in sight  
Surrounded by sentinels, nowhere to hide.

Followed by orbs of glass  
Watching our every move.

Confined in this labyrinth of eyes  
Hunted and dehumanized.
