Every Way

Rex Orange County

I care about you in every way I can
You know I'm troubled but I know you can understand
I'm sorry for the strain
No one prepares you for the way in which things change
But you've been amazing, saw me through my darkest stage
And you always forgave me and now you love me just the same

It means the most, I hope you know
And I hope you know that I think about you in every single way
You're more familiar to me more and more each day
I cry in-front of you and it's very necessary babe
I will care about you in every way I can
