

# Much Too Much

Rex Orange County

Throwing your phone  
And throwing that pain at the wall  
Making excuses, making it up  
And breaking it off for once and for all  
Taking a fall then feeling fine  
Safe overall  
Got people to call

Going outside looking around  
It ain't as safe as you pictured  
Feeling the same old fears  
That never had a chance to begin with, no  
And the road was tough, getting off was worse  
And you can't seem to get back to work  
Watching people turning up to your own funeral

But what's it gonna take?  
To pass the point again?  
Don't let them get dictating your life  
Stranger, I know, I know, I know  
When I can look at the sky I've painted  
Is it alright that I've left spaces?  
Evening light, there we go  
Seurat, Monet, Picasso made the only one  
That showed me how to do it and wanna run  
Running out  
Running out  
Running out

Much too much, can't keep up, it's too tough  
And I might move away, I'm making my mind up  
I'll lead with love, I'll be keeping in touch with the people I trust  
Take a little time away when it feels too much  
I said  
Much too much, can't keep up, it's too tough  
And I'm gonna move away, I'm still making my mind up  
Yeah

Hang out for a minute  
Now you put your favourite work on the wall  
Went with what you liked  
No more time to hide

Are you warm enough?  
Stayed inside with the fire on  
Your colour's warm  
Your colour was often the same  
But I was sometimes wrong  
The belly button went on for so long  
People with different eyes  
Spoke on deeper and deeper subjects  
When we stayed inside with the fire on  
This house is yours  
This time your mine and that's for sure  
And when it's much too much  
You lift me up and show me such love
