

Let's Make A Memory

Rex Smith

You and I will build a world of our own
That we can run to
We will find what all true lovers have known
We'll make our dreams come true

As we walk through this land
Heart and heart, hand in hand, darling
Put your faith in me
Let's make a memory

You and I have dreamed so long of tonight
To learn what love's about
Come to me and lay yourself by my side
We'll kiss away the doubts

We're together at last
Feel your heart beat so fast, darling
Put your faith in me
Let's make a memory

Let's make a memory
Bright as the stars that shine above
Let's fill our cup with the wine of love
Just you and me
And memories of love

After all said and done
Memories linger on, darling
Put your faith in me
Let's make a memory

Let's make a memory
Bright as the stars that shine above
Let's fill our cup with the wine of love
Just you and me
And memories of love

Memories, bright as the stars that shine above
Let's fill our cup with the wine of love
Just you and me
Let's make a memory
Bright as the stars that shine above
Let's fill our cup with the wine of love
Just you and me
