

Oh What a Night for Romance

Rex Smith

For so long I've waited for this night
It's in the air the feeling is so right
Girl, let's stay till the sun brings the light
It's in the stars reflecting in your eyes

It's in the breeze
True love never lies
Let's fall in love and hope it never dies

Oh, what a night for romance
Under the moon we're gonna dance
And with some luck if you'll take a chance
We could fall in love
Oh, what a night for romance
Oh, what a night for romance

Just look around it's everywhere
Dancing in the wind love in the air
People can look what do we care
Who in the world could feel the way I do
I'm so full of love
I'm into you
Darling, say that you feel that way too

Oh, what a night for romance
Under the moon we're gonna dance
And with some luck if you'll take a chance
We could fall in love
Oh, what a night for romance
Oh, what a night for romance

Oh, what a night for romance
Under the moon we're gonna dance
And with some luck if you'll take a chance
We could fall in love
Oh, what a night for romance
Oh, what a night for romance

Oh, what a night for romance
Under the moon we're gonna dance
And with some luck if you'll take a chance
We could fall in love
Oh, what a night for romance
Oh, what a night for romance
