

Superhero

Rex Smith

Born for the day that's here, well, I'm ready
My mind is so crystal clear, well, all right
Build up my body slow and steady
I've heard the calling out in the night

Creatures of evil land are lurking
Trying at every chance to do me in
Sacred as ancient ways powers working
Fighting off deadly foes who never win

All of my life I want to be a superhero
Beat up the bad guy and get the girl
Fly like an eagle, walk on the water
Wearing disguises that save the world

As endless as time itself
I'm getting total control of you, I will become
Eternal as day and night is the setting
Destined to test the life that I've begun

All of my life I want to be a superhero
Beat up the bad guy and get the girl
Fly like an eagle, walk on the water
Wearing disguises that save the world

Save the world... yeah...
Save the world, save the world
Save the world, save the world

Born for the day that's here, well, I'm ready
My mind is so crystal clear, well, all right
Build up my body slow and steady
I've heard the calling out in the night

All of my life I want to be a superhero
Beat up the bad guy and get the girl
Fly like an eagle, walk on the water
Wearing disguises that save the world

Here I come, baby...

All of my life I want to be a superhero
Beat up the bad guy and get the girl
Fly like an eagle, walk on the water
Wearing disguises that save the world

I can fly, baby...
