

Bittersweet

Rexx Life Raj

Ooh, yeah (But it always come back around)
Ooh, oh (Always come back around)

Everything feel bittersweet
How am I not content with being right where I wanna be? (Right where I wanna be)
Why does so much from my past weigh on me heavily?
Why am I walking with heavy feet?
While I pop molly and pray that feeling will never leave
But I always come down (I always come down, why I come down?)

I do not fuck with the come down (I not fuck with the come down , fuck the come down)
But it's always coming back around
Know I loved you like a brother but you just too wild, you can't come around
Crazy you just had a daughter, it make me feel sick to my stomach, I ain't seen your child
I'm lost in my own world (Lost in my own world)
Juggle it all like a circus, ayy
Skin tougher than a 4Runner
That's why nobody see why I'm hurtin' now
My pocket a kidney but God is my witness
If I could cop him one, I'd purchase that
I saw Superman hit the crib tonight
Even though it look lit tonight

Everything feel bittersweet (Ayy)
How am I not content with being right where I wanna be?
Why does so much from my past weigh on me heavily? (Weigh ton me heavily)
Why am I walking with heavy feet?
While I pop molly and pray that that feeling will never leave
But it always come back around

Always (But it always come back around)
Always (It always come back around)
Always come back around
Always come back around
