

Double Back

Rexx Life Raj

Uh
I'm in love with your love, ay
That pussy fire, I can't lie
Treat me like your last nigga ain't break your heart
And I'll treat you like she ain't break mine
I wear my flaws on my sleeves
Thre ain't no flaws in your genes
Lately I've been out of reach
Out of touch and losin' sleep
Show me love
Be my shoulder
Be my crutch
Be my drug
Be enough

My eyes on you
With their eyes on me...

I'm down to go and then double back
Put on a show and then double back
Make sure you know and then double back
Count up some dough and then double back
Double back, double back, double back
Keep on the low when we double back
No one will know when we double back
Wishin' we was gone, but we double back

I been popppin' all the bands on the under
Rockin' dirty Chucks so these niggas think I'm under
I don't like these people all in my business
Niggas tryna figure out who my bitch is
On my Instagram and all in my bitches
You niggas suspicious
I hit your line when I need to get dipped
Stop at the store and then pick up a fifth
You tell me you wanna go hit the city
You'll fuck around and get fucked in the lyft
Slide a hun' to the driver
They see what's up and continue to whip
Don't stop the car, keep driving
I ain't playin', I ain't playin' with ya
I be gone, still be stayin' with ya
Remember when I used to act funny and they still act funny, stop
Now I got hits and a bad bitch, they hate it when I come around
I'ma put on for my all my niggas, this for all my dogs
Now everybody that switch gotta take that loss
Too many clothes baby take that off
Little bit a bread with a real nice loft
Tryna act hard but your ass to soft
Girl you think too much, hit this and get lost
Lost, lost, lost
Girl hit this and get lost
Lost, lost
Uh yeah

I'm down to go and then double back
Put on a show and then double back

Make sure you know and then double back
Count up some dough and then double back
Double back, double back, double back
Keep on the low when we double back
No one will know when we double back
Wishin' we was gone, but we double back

I'm down to go and then double back
Put on a show and then double back
Make sure you know and then double back
Count up some dough and then double back
Double back, double back, double back
Keep on the low when we double back
No one will know when we double back
Wishin' we was gone, but we double back

I'm down to go and then double back
Put on a show and then double back
Make sure you know and then double back
Count up some dough and then double back
Double back, double back, double back
Keep on the low when we double back
No one will know when we double back
Wishin' we was gone, but we double back
