

Just follow me...

You giving out love, huh?
I need to come and get me some
I bought the drugs, huh
They ain't come with a refund
I done looked everywhere, tryna find me some freedom
Tell me where to look, everybody say it's in a book
I should read me one
I been on some upper seeing hella different colors I don't really wanna come down
Skin on peanut butter and every time that I touch her I feel like I get a rush now
You gon' tell your friends about it, I'm gon' tell my bros
I guess we're even, don't drift for no reason, ay

Uber driver like 'Where we going? '
I done put it in the GPS already
I had a few drinks, I confess already
It's only eleven, I'm a mess already
Imma be straight with my [?] girl
And away we go, he said 'Where we headed? '
D.T.O

Downtown, downtown, wayay, wayay
Downtown, downtown, wayay, wayay
Downtown, downtown, wayay, wayay
Downtown, downtown, wayay, wayay
D.T.O

Ay, you the pretty girl with the wave
Drinks on you cause you getting paid
You still shine when they throw shade
Shit don't bother you no way
Shit don't bother you, no
You look down from the top of these hoes
How you get like that, nobody knows
Lights out, but you still on glow
Look, glowed up on the girls that been hating on you
Starred out every dude that been waiting on you
Pulled up out front, there's a table for you
Independence so it ain't nobody paying for you
If you could read my mind right now, you would I was a sleeze
Probably a creep, I know it's cliché but how you look in them jeans
Don't make it too easy, don't make it too easy on me
You made up flawless, your makeup's flawless
You look so good that you make me nauseous
Make me wanna make bad decisions, fuck being cautious
Ain't gotta tell her, she knows she's gorgeous
With an ass like both her parent's horses
I got plans we could put in motion
D.T.O. and get straight to Oakland, get straight to Oakland

Uber driver like 'Where we going? '
