

# Long Way

Rexx Life Raj

I always kept it lit, I never had to switch up  
This for niggas who ain't want me glo'in this much  
I'm on one, got me goin all the way up  
They saw me get it out of the mud  
And they fuck with me the long way  
The long way  
They fuck with me the long way  
The long way  
They fuck with me the long way

Aye, 'cause I ain't on no weird shit, or actin' emo  
Berkeley super hero, I always tuck the ego  
You a million niggas thick, I'm with a couple people  
But how we move with the glo, it feel like a hunnid people  
I keep it a hunnid with 'em  
No need to fabricate it  
Slow down on Adderall poppin', I might be caffeinated  
You'll get decapitated, fuckin' with squad  
But I show love bro, shit it's hard enough to survive  
I peep the subtle shade, I see these niggas  
Hot as a summer day, ugh  
Maybe you niggas should pick another trade  
Seen all the obstacles, I was unafraid  
You play the middle, you like the color gray  
Rut I'm blacker than Barry, sweeter than juice, though  
I been on kill since Jonah Hill with the Jew fro  
Superbad nigga, I'm like Superman, nigga  
In the past they would laugh, now you the mad nigga, fasho

I always kept it lit, I never had to switch up  
This for niggas who ain't want me glo'in this much  
I'm on one, got me goin all the way up  
They saw me get it out of the mud  
And they fuck with me the long way  
The long way  
They fuck with me the long way  
The long way  
They fuck with me the long way

That's 'cause I kept it solid  
If you don't fuck with me, then, it's you  
Just being honest  
People say 'Faraji you changed', I never got it  
The problem is, they never grew, I think it's obvious  
I need the elevation  
"You don't got the answers Sway", I did the education  
Solvin' all equations ("You ain't done the education")  
You been vacant, I'm on vacation  
So fuck what these niggas sayin'

'Cause you don't got the answers though  
Tryna stay afloat on a banana boat  
Baby actin' wild with her man at home  
Really tryna get me out my pantalones  
You gon' make me turn into an animal  
Hot boy, baby I'm flammable  
We should tuck off like valuables

Then evaluate, say she like the way that I

Always kept it lit, I never had to switch up  
This for niggas who ain't want me glo'in this much  
I'm on one, got me goin all the way up  
They saw me get it out of the mud  
And they fuck with me the long way  
The long way  
They fuck with me the long way  
The long way  
They fuck with me the long way
