

Neighborhood Dopeman

Rexx Life Raj

You look really nice today
I like those shoes, where'd you get those from?
They're nice, I hear they have really good deals
That's really cool

Look
Got it like the neighborhood dopeman
Still don't know what niggas smokin'
You're looking in the eyes of the chosen
Seein' right ways, it's a ways to the ocean
I'mma wave bye from the top floor
You couldn't survive at the top floor
Sat there like wifi bluetooth
Change a lot of peoples lives with an aux cord

Dopeman, dopeman
Slang a four pack of the [?]
Look at how my name get so big
Everything else get more closed in
They used to act like I didn't know shit
Now they watch me from the nosebleeds
Big black nigga smile back with a mouthful of gold teeth
Looking like a-

Dopeman, dopeman
Boss up, hold it down for the whole fam
Raji got the city on fire, gave fire to the whole camp
I think I'm a cheat code
Grand Theft Auto shotgun, never had to reload
Niggas turn bitch made for a couple C notes
I just fall back, adderall and the weed smoke

Dopeman, dopeman
They been on one, I been on ten
Looking around for all of my old friends
But when they come around I don't know them
I evolved, you are not the same as I recall
Niggas fell back when I took leap, thinking I would free fall
But I been more like balloons with the strings off
Dopeman, we been on a flight hope it don't land
That's Jet Blue with a redbone
A little bado in my headphones
My mind feel good but my legs don't
Double XL nigga high up in the middle seat
Too big for you to belittle me
Tryna swindle me (kinda like the neighborhood dopeman)

Um, excuse me, who's in charge here?
Did you sit me here or did I pay for this seat?
I don't recall
I don't remember, I was high
It was an extra charge
Well this is to me, this is unacceptable, do you see my knees?
There is something you could do
I don't know what it is, but I think there is something
I don't think that you could have a definitive answer that you can't do anyting

It's whatever, Su-, is it Susan? or Sussan? Sussan? Susan?
Whatever, where's my pamphlet, if I, could I have my pamphlet?
The one that's in front of me, the magazine
You knew what I was talking about, the magazine
Skymall, Sussan
Yeah, it comes with every flight
I wanna look at things I'm not gonna buy
Well that's none of your business
It comes with the flight, it's complementary
Like your beverages should be, are you kidding me?
It's getting ridiculous
