

By Your Side

REYKO

You've always been so strong
At least that's what you showed
You've given me your world
The last inch of your soul

But it's my turn now
Let me take care of you now

You can hold me tight
There's no room for pride
I am here for you
I am right by your side
You can hold me tight
Everything is alright
I am here for you
I am right by your side
I am right by your side

I wish I listened more
I wish you said it all
More time is all I need
For your wounds to heal

And it's my turn now
Let me take care of you now

You can hold me tight
There's no room for pride
I am here for you
I am right by your side
You can hold me tight
Everything is alright
I am here for you
I am right by your side
I am right by your side
