

Lose Myself

REYKO

I don't seem to recall how I got here
Puzzle pieces are lost in my memory

It's a psychologic tunnel
Metaphoric bubble
Covered silver and gold
It's a psychologic tunnel
Metaphoric bubble
Growing before it explodes

You're the reason I lose myself
You make me wanna confuse myself
The more I'm lost the more I'm found
You're the reason I'm standing here right now
You're the reason I lose myself
You make me wanna confuse myself
When I resist is when I fall
You make me wanna keep falling more and more

Random voices is all I remember
When the gravity's gone I surrender

It's a psychologic tunnel
Metaphoric bubble
Covered silver and gold
It's a psychologic tunnel
Metaphoric bubble
Growing before it explodes

You're the reason I lose myself
You make me wanna confuse myself
The more I'm lost the more I'm found
You're the reason I'm standing here right now
You're the reason I lose myself
You make me wanna confuse myself
When I resist is when I fall
You make me wanna keep falling more and more

You're the reason I lose myself
You make me wanna confuse myself
The more I'm lost the more I'm found
You're the reason I'm standing here right now
You're the reason I lose myself
You make me wanna confuse myself
When I resist is when I fall
You make me wanna keep falling more and more
