Serenade

REYKO

I keep sending signs
Everywhere I go
I keep sending signs for you to see and carry on
I keep leaving trace
Everywhere I walk
I keep leaving trace for you to see and come along

You don't need to look for the reason why
Just follow my lead and you'll realise

If you look inside the darkest and deepest nights of all
You will see a shade of brightness shining from my soul
If you listen to the silence very far away
You will hear it
You will hear my serenade

You will hear my serenade

There's a hiding place
Many miles away
There's a hiding place for you to find a meet me there

You don't need to look for the reason why
Just follow my lead and you'll realise

If you look inside the darkest and deepest nights of all
You will see a shade of brightness shining from my soul
If you listen to the silence very far away
You will hear it
You will hear my serenade
You will hear my serenade

You don't need to look for the reason why
Just follow my lead and you'll realise

If you look inside the darkest and deepest nights of all
You will see a shade of brightness shining from my soul
If you listen to the silence very far away
You will hear it
You will hear my serenade

From very far away
You will hear my serenade
You will hear it
You will hear my serenade
