

Slow Mo

REYKO

I've been questioning myself
Is it me or someone else
I keep wondering why I'm here
I have never felt this way

Should I try to explain this
Label it or rename it
Or should I just give in and see where this takes me?

'Cause everything is turning into slow mo
Gradually I'm shifting into slow mo
Please don't ask for answers that I don't know
'Cause everything is turning into slow mo

Colours melting all around
Figures moving with the sound
Nothing's making any sense
Everything is upside down

I don't want to explain this
Label it or rename it
I will just give in and see where this takes me

'Cause everything is turning into slow mo
Gradually I'm shifting into slow mo
Please don't ask for answers that I don't know
'Cause everything is turning into slow mo
