

# The Strangest Thing

REYKO

You're the strangest thing I ever met  
And I love that about you  
You're the strangest thing I ever met  
Tell me what it is you do  
You're the strangest thing I ever met  
Tell me how did you appear  
You're the strangest thing I ever met  
Wonder how long you'll be here

The way you spin the conversations  
The way you twist the connotations  
The way you get to play inside my head

It throws me off my feet in every single way

You're the strangest thing I ever met  
There is no one else like you  
You have turned my whole world upside down  
And I love it, I love it, yes I do

The way you spin the conversations  
The way you twist the connotations  
The way you get to play inside my head

It throws me off my feet in every single way  
Nothing makes sense and there's nothing I would change

You're the strangest thing I ever met  
And I love that about you  
You're the strangest thing I ever met  
Tell me what it is you do

You're the strangest thing  
I have ever met  
The strangest thing  
I will never forget  
You
