

# Black Ice

Rezz

Begging on my knees on black ice  
Everytime you leave I'm caving into darkness  
Drowning in the ways I capsize  
I can't get away, I watched it all fall apart

Don't know how you're not afraid  
Do you even sleep at night?  
Don't look in the mirror  
Karma's looking with a thousand eyes  
Smoke high in the graveyard  
Set fire to your cold heart

Cheated into heaven but you're headed to the other side  
I ain't gonna miss your lying, no reason for goodbyes  
Smoke high in the graveyard  
Set fire to your cold heart

Set fire to your cold heart  
Set fire to your cold heart  
Set fire to your cold heart  
Set fire to your cold heart

Begging on my knees on black ice  
Everytime you leave I'm caving into darkness  
Drowning in the ways I capsize  
I can't get away, I watched it all fall apart

I don't know how you sleep at night  
I don't know how you sleep at night  
I don't know how you sleep at night  
I don't know how you sleep at night

Don't know why you're not afraid  
Don't know how you sleep at night  
Don't look in the mirror  
Karma's looking with a thousand eyes  
Smoke high in the graveyard  
Set fire to your cold heart  
Set fire to your cold heart  
Set fire to your cold heart  
Set fire to your cold heart

Don't know why you're not afraid  
Don't know how you sleep at night  
Don't look in the mirror  
Karma's looking with a thousand eyes  
Smoke high in the graveyard  
Set fire to your cold heart

Don't know why you're not afraid  
Don't know how you sleep at night  
Don't look in the mirror  
Karma's looking with a thousand eyes  
Smoke high in the graveyard  
Set fire to your cold heart
