

Dreamstate

Rezz

I feel the darkness start to blind
Is it you or is it me?
We're standing in the shadows suffering
Take my hand right around your neck
I feel peace while you fade away (Fade away)

I'm barely here
A dreamstate
I've got the knife
I won't wait

You said you'd never changed me
There's no way you can save me from myself
I've got to cut the rope, cut the rope now
Poison the rivers in me
And drag the water I bleed find nothing
I've got to cut the rope, I can't cut the rope right now

I'm watching myself through your vacant eyes
What you always saw in me
The saddest truth, I'm a textbook tragedy
My portrait's painted in drops of red
The weak and the sick, I'm the face of it

You didn't scream
There was no defense
You gave up to ghosts
This was the end

You said you'd never changed me
There's no way you can save me from myself
I've got to cut the rope, cut the rope now
Poison the rivers in me
And drag the water I bleed find nothing
I've got to cut the rope, I can't cut the rope right now
Right now
Right now
I've got to cut the rope, cut the rope right now
(Poison the rivers in me) Right now
(And drag the water I bleed find nothing) Right now
I've got to cut the rope, cut the rope right now

A dreamstate
A dreamstate
A dreamstate (A dreamstate)
A dreamstate (A dreamstate)
A dreamstate
