

Haunted Eyes

Rezz

I think I almost lost my mind again
I only think in shades of blue
I think I almost lost my mind again
Yeah, there's some things I'm going through

You're losing faith in me, I hear you keeping score
Playing your games with me, watch you walk out the door
Promise you'll change, but you just stay the same
We keep making all the same mistakes

I, try, still I wake up in the night
I, hide, each time I see through haunted eyes
Each time I see through haunted eyes
Each time I see through haunted eyes

I think I almost lost my mind again
I hate these voices in my head
They are telling me to start a fire again
They are telling me it's for the best

You're losing faith in me, I hear you keeping score
Playing your games with me, watch you walk out the door
Promise you'll change, but you just stay the same
We keep making all the same mistakes

I, try, still I wake up in the night
I, hide, each time I see through haunted eyes
Each time I see through haunted eyes
Each time I see through haunted eyes
I, try, still I wake up in the night
I, hide, each time I see through haunted eyes
Each time I see through haunted eyes
Each time I see through haunted eyes
