Lonely

Rezz

Little pieces come my way
You say it's just my crazy
Little voices feed my pain
I feel I've lost my baby

Won't you say my name
(Won't you say my name)
Say it loud like you know me
Somethings not the same
(Somethings not the same)
You're not here when you hold me
Won't you say my name
(Won't you say my name)
Say it loud like you hold me
This is feeling strange
You're not here when I'm lonely

Standing but I don't feel pain
You hold the knife that slays me
Least you know it's not too late
You have the power to raise me

Won't you say my name
(Won't you say my name)
Won't you say my name
(Won't you say my name)
Won't you say my name
(Won't you say my name)
You're not here when I'm lonely
