

Relax

Rezz

Just take a nice breath in. Exhale the breath
Just allow yourself now to relax more and more
Because the nicest thing about hypnosis
Is that wonderful feeling of physical and mental relaxation
That can bounce throughout your entire body
Because from this moment in time
There's nothing, nothing of importance for you to do
Except relax

Relax
Rela-la-la-
Rela-la-la-
Rela-la-la-
Rela-la-la-

Just take a nice breathe in. Exhale the breath
Just allow yourself now to relax more and more
Because the nicest thing about hypnosis
Is that wonderful feeling of physical and mental relaxation
That can bounce throughout your entire body
Because from this moment in time
There's nothing, nothing of importance for you to do
Except relax
