

Terrial the Hawk

Rhapsody of Fire

Spread your wings
And fly away with me, my sentry
Be my guide
The spirit animal through space and time

Terrial was born in the wind
See through the clouds and wipe out the rain
Terrial the Hawk made of ice
Brightens the darkness cause I fell from grace

Tell me now
Will you forgive me for my murder?
The Holy man
Collateral damage of the master plan

Terrial was born in the wind
See through the clouds and wipe out the rain
Terrial the Hawk made of ice
Brightens the darkness cause I fell from grace

You diaphanous ancient
The holy protector of fate
Guide me, I'm lost in my vengeance
We'll be like the same thing
We'll be like a wake in the sky

Terrial was born in the wind
See through the clouds and wipe out the rain
Terrial the Hawk made of ice
Light out the shadows and watch over me
The fallen wizard

Terrial was born in the wind
See through the clouds and wipe out the rain
Terrial the Hawk made of ice
Brightens the darkness cause I fell from grace
