

Down With America

Rhett & Link

We've gone east, west, north and south
But now this country needs to go down

We got a high callin' for adventure
And high dollar hiking boots
Bringing highly refined culture
With knives that stab and guns that shoot (pew)
In search of unspoiled land
For unspoiled men to claim
Just because it's beneath us
Doesn't mean it's beneath us to say

Down with America! Dig down, dig down
A new world underneath us, yep, that's where we're bound
Down with America! Dig down, dig down
Claimin' our manifest destination underneath the ground

We'll poke and probe mother earth
And hope somethin' turns up
But no matter what we unearth
We'll find a way to make it burn up
If there's people livin' down there
We'll show 'em we're not jerks
We'll learn 'em all how to dress proper
And put 'em straight to work

Down with America! Dig down, dig down
Scrapin' out every last ounce of the treasures to found
Down with America! Dig down, dig down
We're doin' our part, leaving our mark from the inside-out
