

Fascination

Miller, Rhett

Saying goodbye hurts
This is worse
Whatever this may be
Dug a hole inside me

Can't get no rest
I'm obsessed
I can't believe you left but you won't leave

This is fascination
This is fascination fascination

Now there's two of you
The one I never knew
Stretched on the beach
In the sun out of reach

The one I know well
You and me in hell
Ghost in the house
And she's never moving out

This is fascination
This is fascination fascination

This is fascination
This is fascination fascination fascination

This is fascination
This is fascination fascination

This is fascination
This is fascination fascination
